

Nomination for Open Government Forum

I research & distil large volumes of information discarding the irrelevant.

Extensive experience in developing action plans in multiple industry sections and in the public sector with the most prominent being my work in the privatisation of the State Electricity Commission of Victoria and the reform of William Angliss Institute of Tafe under the federal government competition agenda.

My LinkedIn and personal web sites have thousands of examples of my communication to a wide public audience in Australia and internationally where I interact with the public to raise awareness & to promote open transparent government

APS agencies, the ACCC (Harper Review) and Parliamentary Committees have published my papers and submissions. I have made multiple submissions to the APS Review and attended the recent APS Review Workshop in Wangarratta. My white papers distributed to all SES officers in the APS and some of which are published (the most recent by the APS Review Panel) promote partnerships and I point to my published submission on the need for a National Cooperative Cyber Strategy & Partnership withal COAG, industry, community and individuals

I have over 5,000 LinkedIn connections & followers, many of whom are public servants, politicians and senior corporate as well as professionals, thousands on Twitter and I own hundreds of web sites on the Mosaic Portal.

I engage with every agency of the Australian Public Service regularly visiting Canberra for meetings and relationship development. I am versed on government policy across Ministries, the operation of the legislature and regulations, Parliament and the Public Service as well as the regulatory agencies

An ex public sector employee in major change and reform, I only engage in the political side when necessary. My most recent engagement is with the Immigration Border Protection, Public Service Commission and Prime Minister and Cabinet.

I have no vested interest other than my work with nem Australasia in pursuing productivity and performance initiatives with the APS

I thank you for your consideration
